MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: FY 04 Long-Haul Communication Policy

1. This memorandum is intended to provide a policy for CONUS Long-Haul Communications funding for FY 04. The long haul services included in this policy are those services primarily acquired through the Defense Information Systems Agency (DISA), which has been broken into two categories for funding purposes. The long-haul services provided to essentially all users within a garrison's area of responsibility are designated as common user and will be funded by the garrison Director of Information Management (DOIM). The long haul services in support of a single or limited number of customers that are not shared with users across an installation are considered mission unique and will be funded by the users. Alternative solutions for long-haul resources allocation in FY 05 and out are still being determined.
2. In FY 04 funds will be transferred from CONUS MACOMs to the Installation Management Agency (IMA) for the common user requirements. The FY 03 costs associated with common user services will be the limit for FY 04 levels of IMA funding support. Costs that exceed the FY 03 common user levels are the funding responsibility of the customer and reimbursement to the DOIMs will be required.
3. The NETCOM has coordinated with each of the affected DOIMs and MACOMs on the designation of common user type services and a detailed lists of services, circuitry and costs are enclosed.
4. The HQDA Resource POC is Ms. Twana Jones, CIO/G-6 at DSN 224-0435 or commercial (703) 614-0435, twana.jones@us.army.mil and the Technical POC is LTC Samuel Edelman at DSN 332-7364 or commercial (703) 602-7364, samuel.edelman@us.army.mil.
